

# Phillips Square-Driv<sup>®</sup>

**Construction Fasteners**

The Phillips Square-Driv<sup>®</sup> construction fastener line was developed to solve problems encountered by contractors with other fasteners in the market place. It incorporates aerospace technology into the patented recess, a double transition under the fastener head, a paintable and stainable coating and Anti Cam-Out Rips (ACR<sup>®</sup>) on the driver bit. These features provide the user with off-angle drivability, reduced recess stripping, higher strength and a fastener that can be painted or stained without priming. Phillips Fastener, LLC provides ISO9001 Quality Control monitoring and has the best warranty in the industry.

## Phillips Square-Driv<sup>®</sup> Wood Screws

### Phillips Square-Driv<sup>®</sup> Bits

- Drives with Phillips Square-Driv<sup>®</sup>, #2 Square Drive bit! or standard phillips driver!
